Introduction

The world was experiencing a period of anarchy, chaos, confusion, and depression during the Coronavirus time. At this time when Coronavirus was at its peak, God gave glimpses of His plans through dreams and visions to a young person. These glimpses helped the young person to come out from the turmoil caused by covid and to gain a better understanding God and His plans. Just like Samuel (in the beginning), this young man initially questioned whether God was really disclosing his plans when He first began to reveal them. But over time when he recollected the dreams or visions, the content included in these dreams or visions was rich in God's knowledge and wisdom.

This book is a compilation of visions and dreams that a young person received from God. As you read this booklet, allow God's knowledge to shine in your circumstances and get ready for the end times.

End time scripture mines

God in His mercy gave a young person a vision of end-time scripture mines. A heavenly visitor takes this young person ahead of time and guides him to a mountain's peak. He can see a lot of calamities and natural disasters occurring towards the south direction. The destruction that was taking place both on land and in the water was a distressing sight. The visitor then tells that God's end-time scripture mines have opened little earlier.

Immediately the young man eyes are opened. He sees a steep valley downward and the valley's depth reaches till the center of the earth. The valley is endlessly deep. He sees disasters and an endless valley below with the same pair of eyes at the same time. He observes two events occurring simultaneously, as if one layer was built upon the other layer. Then he realized that when God views a place, all of the past, present, and future events are occurring simultaneously. For God, when he looks at something, he gets information about it by seeing all things happening/happened simultaneously at the same time.

The valley was a mine. There were vast number of resources, secrets and minerals present in this mine that would be necessary for end-time survival. It's a two-layered wisdom; before disasters strike, God's will open His chosen people's eyes to this mine to extract the minerals. Although vast concentrations of precious minerals are present, this mine is only in the discovery stage, hence its actual value is unknown. Finding the locations and quantiles of these minerals needs lot digging effort and extensive research. This mine was opened for the end times.

This mine is layered, with numerous strata/layers where various minerals can be discovered. There were attractive flowers and

radiant plants at the mine's entrance. There are chrysolite and sapphire stones as you descend in this mine. As we descend further, the air becomes thinner and the colour of air is amberish. There are several strata in this mine. The next layer will open once we have passed the previous layer. The depth of this mine equals the earth's radius. The precious minerals are located in the lower strata, and it requires a lot of patience and persistence to extract these minerals.

The visitor mentioned that the mines are nothing but the scripture. The mysteries / secrets in scripture are the precious minerals. We have known for many generations that the Bible contains prophecies about the second coming. We lack knowledge, interpretation, or a key to the unveil/unlock the secrets of the second coming mentioned in the scripture. Majority of the people have interpreted the second coming secrets with literal understanding of the scriptures. The visitor said that this end time mine was closed for many generations. But now God has opened these mines. In order to dig in these mines, sophisticated digging equipment and young people are required.

The visitor said that God is searching for young people with a good, disciplined lifestyle who have expertise in digging mines and God is willing to provide the necessary digging tools.

A miner puts an end to the darkness; he probes the deepest recesses for ore in the gloomy darkness. He cuts a shaft far from human habitation, in places unknown to those who walk above ground. Suspended far away from people, the miners swing back and forth. Food may come from the earth, but below the surface the earth is transformed as by fire. Its rocks are a source of sapphire, containing flecks of gold. No bird of prey knows that path; no falcon's eye has seen it. Proud beasts have never walked on it; no lion has ever prowled over it. The miner strikes the flint

and transforms the mountains at their foundations. He cuts out channels in the rocks, and his eyes spot every treasure. He dams up the streams from flowing so that he may bring to light what is hidden. (Job 28:3 -11)

When disasters strike the outside world, God's mines are opened far in advance of the catastrophe, and the minerals that are extracted are given to His people.

There are numerous end-time mysteries in these mines that must be dugged till we receive the correct interpretation from God. Some of the scripture end time mines /portions where end time secrets are present are below.

- 1) Prophecies of Daniel
- 2) Prophecies of Isaiah
- 3) Prophecies of Minor prophets
- 4) Book of revelation
- 5) Beatitudes
- 6) Jesus mentioning about Second coming
- 7) Prophecies of Jeremiah
- 8) Romans 8

We must dig these end-time scripture mines until we receive an accurate interpretation from God, under the direction of the Holy Spirit, and with the wisdom of God. A lot of patience is needed for this task. These topics have vast deposits of Knowledge of Jesus and God's plan for the end times. One of the fundamental keys to unlocking them is to focus entirely on Jesus in these passages. The way Jesus explained the parables to His Disciples, Jesus must direct you and explain these portions of scripture. The Bible contains a huge number of mines. These eight mines are a few of them.

Digging tools – Holy Spirit’s guidance, God’s knowledge and wisdom, discernment, and a clear understanding of God’s timing

As the secrets of end times are interpreted with right digging tools, the interpretation of prophecies/scripture will reveal some of below minerals –

- 1) Revelation of Jesus Christ – In Christ are treasures worth finding till the end of the world
- 2) Authority of Jesus
- 3) Preparation of Sons of God
- 4) Provision/Grace supply of God
- 5) Discernment of Spirits
- 6) Resurrected body
- 7) Understanding about the working of God
- 8) Physical cover for calamities

These minerals from the scripture mines can be used to protect us during the difficult days we will experience in the end times.

Throughout the years, we have only had a literal comprehension of the end-time secrets; however, as the end-time scripture mines are opened, we will get a true and comprehensive grasp of end-time secrets.

We may have read some passages or secrets repeatedly over the years, but going forward, God’s insight (Focus on Jesus) will serve as a key to unlock such passages.

The minerals found in the mine will all reveal a stunning/magnificent revelation about Jesus, namely the brilliance and radiance of God’s knowledge. When properly interpreted, every prophecy reveals a facet of Jesus’ personality and nature that is in line with God’s will.

As we have entered a season of God opening the end time mines, Start digging the scripture with the help of Holy Spirit, and you will find vast deposits of Knowledge of Jesus and Jesus's plan for the second coming.

Since God has unlocked the end-time mines, begin digging the scripture with the aid of the Holy Spirit, and you will uncover vast deposits of knowledge about Jesus and His second-coming strategy.

Ocean of Knowledge of Jesus Christ

God in His mercy gave a young person a vision of the ocean of knowledge of Jesus Christ. God takes a young person to a shore of a beach. The water was clear and had a saffron hue. It smelled sweetly like roses. The beach was a part of the ocean known as knowledge of Jesus Christ. This ocean is a huge body of water whose edge stretches to farther horizons. The young person entered the water at the beach. The water was knee deep and the waves were approaching as he entered. When he got in the water, his legs started to lose strength and became numb.

He felt some irritation on his legs from the prickly nature of the water. The impurities in the flesh and soul were being eaten by the water. All unholy behaviors, actions, and indwelling sins were being eaten by the water. The young person recognized that the self inside of him was pushing him back to the shore. Continual waves were pushing him into the deep water. The young person's body went numb when the water touched him. His hands and legs were immobile and were pulled into this ocean of Knowledge of Jesus Christ.

All of his dreams, objectives, visions, and plans were erased by these waves. For long time, he was entirely paralyzed. He was gently sucked into this ocean and felt lost. The person was still alive, but he lacked the strength and courage to face the water. He started moving along with the water. The young man was entirely buried and submerged in the deep ocean after being pushed into it by the waves. He thought his life was finished but later he realized that his thoughts, plans, desires are replaced the water's nature. The water is filled with the richness of God's attributes and this water permeated the young person's soul. The young man's body began functioning differently, and his eyes saw differently.

Then he realized that he has transitioned from human life to God's life when he was pulled by the waves of God into the ocean of Knowledge of Christ.

Waves of God – is the Holy Spirit

Water – The knowledge of Christ eats/destroys all impurities like sinful behavior and sin, in both the soul and flesh.

Holy Spirit makes our lives adjust to the ocean of Knowledge of Christ.

In the ocean deep, the young person became a living spirit and started traveling through the ocean depths to search for the deeper knowledge of Christ.

The young man stepped into the water, but as soon as he did, the waves and water dragged him into the ocean.

The first stage is for us to enter the ocean of Knowledge of Christ; the Holy Spirit and Knowledge of Jesus will then take care of the next steps.

There is no going back to the shore once we enter this ocean of Knowledge of Christ. The Holy Spirit and the Knowledge of Christ take control of our lives and deeply drag us into this ocean till we are completely submerged.

Many saints were pulled into this ocean of Knowledge of Christ. Moses entered this ocean. He travelled for 30 years in this ocean before continuing in heaven. Reformers like Calvin entered this ocean, bringing glorious truths about God and Jesus Christ. Today do you have a desire to enter this ocean where we find abundant riches about Christ and share them with others? Ask God to pull you into this ocean of Knowledge of Christ.

There are numerous oceans in heaven. For example, the ocean of God's mercy and love, the ocean of miracles and healing, etc.

Ocean of God's love is also like ocean of Knowledge of Christ. The water is extremely clear and poisonous (to self). This water is lethal to our selfish qualities, such as pride, ego, and self-love. All the self-attributes are choked to death by this water. In this ocean, we initially perceive a reflection of our lives. Once we enter, the waves automatically pull you into the deep water.

We are pulled into the deep water where we see Jesus' infinite love. This water infuses the freshness of Jesus himself into our lives. We are filled with Jesus as we are submerged in this ocean. Our lives become an abode for Jesus, and we become an abode for Jesus. There is a divine union of man and Jesus in this ocean. Jesus lives in this place of love. Love is a dwelling place of Jesus.

Ocean of healing and miracles – We enter this ocean to draw some water and distribute it to others. We are not drawn into this water rather we draw water from this ocean to help the needful. Instead of being dragged into this ocean, we draw water from this ocean to aid others in need.

Living water

God in His mercy gave a young person a vision of Living Water. The young person was escorted to the bank of a glittering river in this vision. When viewed from various angles, the river appeared to be radiating many colors. Alongside the young individual, a visitor was present. The visitor told the young man to take some water in the hand and start drinking this water. The young person took some water in his hand.

The water was sparkling brightly and smelled like roses. When he picked the water to drink, he heard some voices in the water. Then he realized the water spoke. As he was about to drink the living water, from the living water he heard lot of words about Jesus like Jesus was a merciful God, Jesus was a compassionate father, do you know Jesus as Father, you are blessed that you know about Jesus, I had a privilege to see Jesus, Jesus came by yesterday, etc.

The living water asks some questions or revealed some facts about Jesus. The young person took roughly 200 ml of water in his hand and heard 200 different voices each mentioning something unique about Jesus. Each droplet or milliliter spoke something unique about Jesus. There were about 20 lakh liters of water in the river. The river of living water had 200 crore droplets of water and each droplet tells something unique about Jesus. Saints and broken people are given this privilege to drink from this river of living water.

Because the water is a living thing that can speak, think and has no death, it is known as “living water.” This water is overflowing with the life of Jesus. So, the living water’s voice describes about Jesus.

Samaritan woman got a chance to drink this living water. This living water speaks and reveals numerous facets of Jesus. There was a deep desire or stronger urge to reveal or share about Jesus when the Samaritan drank this water. She could not hold back this stronger urge to share about Jesus. She immediately put her past and current circumstances aside and began talking to residents of the town about Jesus. Living water creates a stronger desire to share about Jesus.

The water that the Samaritan woman drank was the living water. The Samaritan woman became a place/ vessel of living water, where the living water within her began to speak of Jesus. The living water reveals/speaks about Jesus. This revelation of Jesus gave life to people around her. Living water itself does not give life. The overflowing nature of Jesus in the living water gives life.

Slowly over a period the living water inside will become the fountain of living water where Jesus's life will be poured out to people. The Samaritan woman over the course of time became an evangelist, according to history.

At the Cross, the fountain of living waters was opened. These riches and treasures of God in Jesus were opened.

A person who got a taste of living water cannot remain silent. There will be bubbling joy within them to share about Jesus.

Ask God to give you a taste of the living water and to make you a vessel that always makes Jesus known to others.

God Is...

A young man had a dream in which he visited heaven. In heaven, this young man was taken to an auditorium. In that auditorium, he witnessed God seated on a throne with a scribe standing next to him. Nearly 2000 people were in this auditorium and each of them had a prayer request. Each person approaches the throne of God in a well-defined order and tells the scribe about their prayer request; the scribe then shares the request with the God who is seated on the throne.

God responds to each prayer request with a single line answer, which the scribe then relays to the individual. It took 1 millisecond for God to answer. The answer to the request was a nature of God. i.e., God is _____. For example – God is Healer, God is protector, God is your helper, God is your revelation, God is your treasure.

A person came with broken relationships. God responds to the person as- God is your comfort.

This nature of God comes with the authority to solve to the problem.

This one-line nature of God itself is an entire remedy to this problem. When the person hears this answer from God, His heart was joyful and happy.

When God tells the answer i.e. a nature of God, immediately God begins this process of fulfilling the answer to the prayer request. In this process of fulfillment of the answer, God works on our life by unveiling and rubbing this nature in our life. This process can be slow / fast depending on the unveiling/opening of this nature. We receive two benefits from this process, including the

fulfilment of our prayer request and the development of God's nature in our lives. When this God's nature is developed, we might be safeguarded from future problems.

When you have a prayer request – If God is mentioning to you about His nature. Do meditate and dwell on this revealed nature of God. Ask God to reveal about this nature. Only in this revelation of this nature, we come closer to fulfilment of our request.

One line from God can change our life and situation.

One line or one word from God about his nature / character of God will be more than enough to solve our problems.

2000 people's prayer requests were all answered in 5 minutes. A new batch of 2000 people would enter the auditorium every five minutes. The prayer requests were answered by God himself. Don't encourage others to bring someone else's prayer request, God warned the scribe. Everyone brings your prayer request to God directly. The auditorium is always open, God is constantly seated on this throne. Come to your Father and share your prayer request.

God doesn't make you wait to listen to your problem. He is always attentive and listening. All are welcome. When a person shares his request, the spirit inside him will directly bring out the request and God looks at that person and conveys the answer to the scribe. God himself can communicate the answer, but his holiness has the potential to kill a person. God is exceedingly glad to hear your request. God keeps track of your name and request.

For many years, God was seated in this auditorium. Many people have come with prayer requests numerous times.

Though His voice was heard by the scribe, every time a word came from God, there is a freshness in the atmosphere. Every time when God speaks, there are sudden outbursts of joy.

2000 requests were parallelly addressed in 5 minutes. Everyone received an answer and left with great joy and did not look back. God provided a comprehensive answer.

Today, do come to the same God who is seated on the throne to answer to your requests, and he is always ready to answer you.

Tears of Jesus

In His kindness, God has shown a young person a vision of Jesus' Tears.

In this vision, a heavenly visitor takes this young person to the edge of a lake on the top of a mountain. A person was crying and his face was bloated in the middle of the lake. The person in the middle of the lake, according to the heavenly visitor, was Jesus. The lake was formed by continuous tears of Jesus for some generations.

The lake's water was rapidly disappearing. The heavenly visitor was summoned by Jesus to bring some young people. The heavenly visitor immediately brought around 20 people and instructed them to go to Jesus one by one.

When a young man walks up to Jesus and sees his face, he instantly begins to cry out in anguish and agony. Each of the 20 young individuals experienced the same experience. Every young person faced one unique direction and began crying.

Their screams and agony were exceedingly loud and could be heard all the way to the Father in Heaven, because those in hell also scream with such a loud voice that it reaches the Father in Heaven. Only with such a cry and anguish for perishing souls can people be saved from hellfire.

There is a shortage of tears in the kingdom of God.

Jesus's tears have been shed for many generations.

The tears of Jesus fill the entire earth and in that tears a sinner is saved.

Jesus is Humble and Lowly because He is always in a tearful state of agony for the sins of His people.

Heaven is surprised by this continuous outflow of the tears of Jesus.

Tears have a price, and that price is the sacrificial love of Jesus.

Tears made Jesus a humble and lowly God.

Do you want a fellowship and communion with this Jesus in partaking in shedding of tears for humanity?

God is conquering over the Inside world

God in His mercy has given a visitation of His second coming to a young person. This young person was standing in a open field with a heavenly visitor standing next to him. This heavenly visitor was staring at the sky and this person was also staring at the sky. The sky was like a rainy day when before a rain comes, there is a formation of clouds of one side and the other side was sunny. But

this the one side, there was large and magnificent light and the other side was mixture of darkness and light.

The large and magnificent light was very enamorous and dense its like it is conquering the other side. The heavenly visitor told that the large and magnificent light was like the Kingdom of God. The Kingdom of God is about to conquer the other side and then the entire world. This young person asked the heavenly visitor, how is it possible? Since there is coronavirus? He mentioned the vision is about the inside world.

The main points of this visitation are

- 1) The Kingdom of God is taking over or conquering the inside world.
- 2) Once the inside world is taken over by God, the separation between worlds (outside and inside) is broken and it becomes one world. They start living in outside world with the power from the inside world.
- 3) The Kingdom of God advanced so fast in last 2 years compared to last 100 years.
- 4) The King is ready to come do you still don't understand. Are you not able hear the chariots sound?
- 5) Why do think so much of coronavirus when the Kingdom of God is expanding so much. Be very joyful that God's Kingdom and authority is coming back.
- 6) The enemy can understand the outside world but not the inside world.
- 7) God is about to conquer the inside world but the enemy still has no clue and feels his time is over. (God's way of working is so hidden till it is revealed)
- 8) Just as God is conquering the inside world, Satan is conquering the outside world. God is far ahead of Satan and conquers the inside world before Satan conquers the outside world.

- 9) The people who's inside world is conquered will be not be affected by the situations happening in the outside world.
- 10) Inside world runs on mercy of God and outside world runs on hard work.

Saint's secret for a fruitful Christian life

God in His mercy has taken a young person to Heaven. He had the chance to interact with some of God's saints when he entered heaven. He asked these saints about their secret for a fruitful Christian life. Some points are listed below.

- 1) Evan Roberts (Welsh Revival evangelist)
 - Don't disappoint God
 - Wait, Wait and don't make a step without the Holy Spirit.
- 2) Ruth – Love your enemies like your parents
- 3) Moses – Learn to say "I obey your Word"
- 4) Enoch – Learn to speak to God always.

Enoch mentioned – He forgot about time when he spoke to God. Slowly, he began to resemble God, and the earth could no longer contain him. He stopped talking for a while one day before realising that he had been in heaven for a very long period without leaving there to earth.

- 5) Women caught in Adultery – Do learn to live in the Light

She mentioned that "First time sometime did not condemn me. Jesus non condemning nature saved me".

- 6) Ezekiel – Understanding about God in Jesus is the river that flows from the temple (Ezekiel 47)
- 7) King Josiah – Seek God, Seek God
- 8) Rahab – For God's plan to be fulfilled it requires lot of Patience
- 9) Samaritan woman – Keep meditating on Jesus's words.
- 10) Corie Ten Boom (Evangelist) – Think about your suffering as nothing when compared to what Jesus suffered on the Cross.

All Glory to Jesus alone
